Drawing inspiration from Thailand's rich heritage of healing therapies, our expert therapists skillfully blend traditional techniques with modern comforts, offering you an unforgettable and holistic wellness experience.

## BODY TREATMENTS

### THAI MASSAGE

60 MIN | 90 MIN | 120 MIN

Foreign travellers should definitely experience the Traditional Body Massage, which draws inspiration from Chinese and Indian healing traditions. This massage incorporates stretching and acupressure techniques and is performed without the use of oil.

### DEEP SLEEP AROMA OIL MASSAGE

60 MIN | 90 MIN | 120 MIN

Our best-selling massage is a combination of ancient pressure point therapy and the application of essential oils extracted from plants, leaves, and flowers. This technique is applied to the body using Swedish massage methods. It serves as a wonderful reward after a tiring day of work or travel, as it has been shown to enhance blood circulation and lymphatic fluid movement.

### ORGANIC COCONUT OIL MASSAGE

60 MIN | 90 MIN | 120 MIN

Delight your senses with a Natural Coconut Body Scrub; nourish your body with a rich Fresh Coconut Hot Compress Massage, then finish with a Full Body Coconut Hot Oil Massage.

### WARM AROMA OIL MASSAGE

60 MIN | 90 MIN | 120 MIN

Our warm oil massage offers a delightful experience. The added warmth of the oil creates a truly immersive relaxation sensation. As the heated oil is gently applied to the body, it aids in softening and loosening the muscle tissues, enhancing the overall experience of tranquility.

### SPORT MASSAGE

60 MIN | 90 MIN

Sports massage utilizes firm strokes and deep pressure to fine-tune muscle systems ensuring a healthy supply of oxygen throughout the body. The body's toxic waste, a by-product of physical exertion, is eliminated in the process.

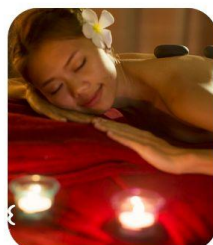

## BODY AND FOOT TREATMENTS

### FOOT REFLEXOLOGY

30 MIN | 60 MIN | 90 MIN

This popular massage provides relaxation and relief after a long day. It targets the lower legs to alleviate tension and focuses on reflex zones of the feet, which are believed to promote oxygenation of major organs. It also improves circulation, reduces pain, and aids in the treatment of various acute and chronic conditions.

### BACK AND SHOULDER MASSAGE

30 MIN | 60 MIN | 90 MIN

This massage technique involves applying finger pressure, along with hands and elbows, to target tense areas of the back and shoulders. Clients sit on a specially designed massage chair that offers complete comfort during and after the treatment. It is beneficial for relieving jet lag, reducing strain and tension, loosening stiff joints, and enhancing blood circulation. It's an excellent way to unwind after a long day at the office.

### FOOT SCRUB AND FOOT MASSAGE

60 MIN

Foot scrubs provide relief in a variety of ways. The purpose of this process is to remove dead skin cells, reduce calluses, improve circulation, relieve muscle tension from standing or walking all day long, and soothe tired muscles.
